

# Skipping Stones

## Over It

He just a little boy lost inside his little world.  
Will he find his way back home?  
He just a little boy, lost his mind over a girl.  
Will she call him on the phone?  
If I told you how I cared would you be so scared that  
you would turn your head away?  
If I told you this was real would you believe in how I feel  
so that I can make it through the day.
