

(Segue) Helpless

Buckcherry

Sing me a song cause I don't want to hear my life go by
Sing me a song and let the melody dance through our hearts tonight
And if you face it you'll find that the love we can make is so strong

Forget what they're saying
Stay true to yourself and move on

I see the city at night
See the street life, the restaurants, the passerbys
Somebody's home, to the shower they go clean the stress away

Is anyone out there
To the heartbreak station, I'm gone
Forget what they're saying
Stay true to yourself and move on

I don't want to live my life today
I'm all out of love and I'm tired of changing.

I hope you can help pass the time away
Is anyone out there
To the heartbreak station, I'm gone

I fell out of love this time again
I can't stand one more fight, I'm too tired and crazy

I know someday I will be strong again
Forget what they're saying
To the heartbreak station, I'm gone

Heartbreak station I'm gone
Heartbreak station I'm gone
Heartbreak station I'm gone

I don't want to live my life today
I'm all out of love and I'm tired of changing.

I hope you could help pass the time away
Is anyone out there
To the heartbreak station, I'm gone

I fell out of love this time again

I can't stand one more fight
I'm too tired and crazy
I know someday I will be strong again

Forget what they're saying
Stay true to yourself
They'll laugh and they'll praise you
And find all the guilt
Is anyone out there
To the heartbreak station, I'm gone
