Everything Speaks

Diamond Rings

I can fly across the ocean
And I can glide up from the floor
I can set your heart in motion
And I can unlock every door
I can feel the faintest feeling
I can hear the smallest sound
I can break through any ceiling
And everything speaks to me now
Everything speaks to me now
Everything speaks to me now
Everything speaks to me now
Everything speaks

I was born to be descendant
I was raised to be the same
I was taught to know the difference
In between boy and girl names
I know when to trust my vision
I know when to show my pride
I know when to keep it hidden
Everything speaks far and wide
Everything speaks far and wide
Everything speaks far and wide
Everything speaks far and wide
Everything speaks
