Gone (Sango Remix)

The Weeknd

I got you
I got a hold of you
Said you want to see
How we roll
Well take a seat (take a seat)
And we'll just
Drink it, drop it, drink it spill it
Baby, touch your body, body
You gotta, taste it, feel it, rub it on me baby
Don't you worry, you gotta keep up
Cuz I been gone, I been gone, I been gone, I been goneGirl
Why don't you fuck what you heard, baby
Cause I been gone
You can see for yourself, lady
Girl, I lit you something
Something something, for you
You would love to pass around
Yeah, yeah, yea yea yea yeaOh well just- Drink it, drop it, drink it spill it
Baby, touch your body, body
Gotta taste it, feel it, rub it on me baby
Don't you worry, dont you worry, you gotta keep up
Cause I been gone
I've been gone, I've been gone, I've been gone
I've been gone, I've been gone
I've been gone, I've been gone, I've been goneI hope I make it home
Youll be thinking of it
I got the whole city on my side, tonight, tonight
Watch us rock it out
Watch us leave it girl
After the show is done
You can take take me to yoursBut my?
I love the way you tasteDrink it till im horny baby
Fuck me while im faded
Feel that through my?
Babygirl I gotcha
I'm only 21 so I do it when I wanna
Gone from the codeine, 'methazine, weed
Got me feelin kinda weak
And it's kinda hard to breathe

But you're turning 23, so I'll fuck you if you need
In your birthday suit
I'mma give you what you fiendBut I ain't taking off my black boots
I'm fallin
Cuz I'm numb from the neck down
I'm sorry
You won't know that I can't feel it
I get with the fuckin loose girls
By the way I fuckin did it
And you won't ever fuckin know
Cuz I won't ever fuckin show it
Except when I be wheezy from that other cup of potionDirty spiked toastin
Fast live fuck slow
Low life for life
Let the mix flow
Let the night flow
I'm so gone
Let these? flow
I'm so gone
Let these meds flow
I'm so gone
I'm so gone
Woah, woah, oh
Said im gone gone gone
Woah ohI'm so goneGONE
