Between the Walls

Efterklang

the light that gave you hope
and turned our records into blur
the dominant force of a change
we're talking to the best
in simply anything at once
it's a new year's walk
between the walls
between the walls
in all the words you waited for the one
do I want it
to the north, you took it up before it was
it's a tumbling thought
between the walls
I'm a werewolf
it seems so wrong
what it follows
caught up in the old fear
(my) sacred words
I can't evolve
caught up in the old fear
(my) sacred words
I can't evolve
till it hurts
caught up in the old fear (of)
(my) sacred words
I can't evolve
till it hurts
the light that gave you hope
and turned our records into blur
the dominant force of a change
we're talking to the best
in simply anything at once
it's a new year's walk
caught up in the old fear (of)
(my) sacred words
I can't evolve
till it hurts
I can't evolve
caught up in the old fear (of)

(my) sacred words
I can't evolve
till it hurts
(between the walls)
caught up in the old fear (of)
(my) sacred words
I can't evolve
till it hurts
(between the walls)
(go, go, stand up like you should)
(don't let go - don't let go)
(between the walls)
(go, go, stand up like you should)
(don't let go - don't let go)
