

# Ultra Blue

## Thrice

Unabashedly pursue the truth that we cannot deny  
A revelation shining through  
Orchestration Adonai  
A revolution ultra-blue  
The methodic battle cry  
Though some say there'll be no coup  
We'll never know unless we try to see it through  
And find a different point of view  
One where faith is not taboo  
And we'll all learn to see the world as new  
Sometimes things [Incomprehensible] proved to be an outright lie  
But it seems we always knew in some unspoken lullaby  
I'll see you at the rendezvous  
Raise our voices to the sky  
Though some said there'll be no coup  
We'll never know unless we try to see it through  
And find a different point of view  
One where faith is not taboo  
And we'll all learn to see the world as new  
Revolution ultra-blue  
Revolution ultra-blue  
Revolution ultra-blue

...
