

# I'll Grow My Own

Chris Cagle

Up and down the roads we go  
Tearing up the ground we sow  
With corn and beans and all  
Yeah, man, it was hot

And I learned not to beg no more  
When we drive by that country store  
When Grandpa say what you need it for  
Ain't got nothing we ain't got

Couldn't tell that old man nothin'  
He was backwards to the bone  
He said let me tell you somethin', boy  
If there's something I want

I'll grow my own  
Yeah, all I need is G-O-D to bless the seeds I've sown  
And pray for a little rain  
Yeah my daddy was the same  
My daddy as a kid had a little but yet I lived  
If you think you know what's good for me, you don't  
I'll grow my own

As long as schools keeps washing brains  
On how to ride that gravy train  
And teaching kids that there just ain't  
No God up in the sky

As long as they say guns are bad  
And you don't need no mom and dad  
Sex is just some fun you have  
And love is all a lie

I pray for all those kids you raised  
On my hard workin' dime  
But unless you change your crazy ways  
You ain't raising mine

I'll grow my own  
Yeah, all I need is G-O-D to bless the seeds I've sown

And pray for a little rain  
Yeah my daddy was the same  
My daddy as a kid had a little but yet I lived  
If you think you know what's good for me, you don't  
Then I'll grow my own  
Yes I will

Your lips are movin', yeah I can see 'em  
And Mister Politician I just don't believe 'em  
You want my money, you want my freedom  
You want my rights but I'ma fight like hell to keep 'em  
You want my sweat, you want my blood  
You want my daughters and my son

But I'll grow my own  
Yeah, all I need is G-O-D to bless the seeds I've sown  
And pray for a little rain  
Yeah, my daddy was the same  
He showed me as a kid, had a little and yet I lived  
If you think you know what's good for them, you don't  
Yeah, the best thing you can do is leave us alone  
And I'll grow my own  
Yeah, I'll grow my own
