

Extra, Extra

Immature

Extra extra
Read all about it
I'm lookin' for that one love
That's gonna treat me right
Extra extra
Read all about it
I'm lookin' for that one love
That's gonna hold me tight
I'm gonna put it in the wildness
I'm looking for that one girl that I know
I can call my very own
I hope she reads this best stage
'Cuz tonight is the night
I don't wanna be left alone
Extra extra
Read all about it
I'm lookin' for that one love
That's gonna treat me right
Extra extra
Read all about it
I'm lookin' for that one love
That's gonna hold me tight
In the end I wanna tell her
I just enjoy doing
The simple things in life
Like holding hands in the park
Ooo, my love will never stop
Girl, I'm gonna put it in the wildness baby
Extra extra
Read all about it
I'm looking for that one love
That's gonna treat me right
Extra extra
Read all about it
I'm looking for that one love
That's gonna hold me tight
If this sad pertains to you
Just call me in a hurry
And I'll get right back to you baby

And I would make for me and you
So you don't have to worry
I'll be wit you forever baby
Extra extra
Read all about it
I'm looking for that one love
That's gonna treat me right
Extra extra
Read all about it
I'm looking for that one love
That's gonna hold me tight
Extra extra
Read all about it
I'm looking for that one love
That's gonna treat me right
Extra extra
Read all about it
I'm looking for that one love
That's gonna hold me tight
Extra extra
Read all about it
I'm looking for that one love
That's gonna hold me tight
