Warming Sun

The Dirty Heads

Advisory - the following lyrics contain explicit language:

Picking up slack you live for it lady
You never have a good time and go
Taking it back you try for it daily
You only like that old rock and roll
You wait for the night, you're rocking it steady
You can't stop and fuck up your flow
You fight from the fix, the weight of it's heavy
You feel like you'll never let goAnd over and over and over and over again
Over and over and over and over again(Chorus)
Look to the warming sun
We left our troubles all around the town
You know we didn't hurt no one
We lit the sky up and we burned it down
(Chorus)Slipping in time we move with it only
We didn't know the night went so fast
We broke all our bones, the city it owed we
We never let it live in the past
We live in the light, we wake with it slowly
Learn to love the one thing that lasts
When daybreak came on, there was one thing it showed me
That there was nothing left in our pathAnd over and over and over and over again
Over and over and over and over again(Chorus)Round and round we go
An now we reaping what we sow
Round and round we go(Chorus)
