Hell House

Christopher Lennertz

In every neighborhood, you got your house that's supposedly haunted. Well in our neighborhood, there's the hell house, and
right now nobody can believe it, but there's a sign out front of hell house, that says, "For Sale"
[Monoxide Child]They tell me you can see the chalk lines
In the middle of the living room
A sure sign that somebody must've died there
I think they said it was a bride and a groom
And I guess they both died tryin' to run for the stairs
I don't care, shoot me a price
I wanna move in quick
I wanna sleep with the bodies while the blood still drips
Call me crazy but it's just what I want
I really hope that shit happened and it's not just a fraud
[Shaggy 2 Dope]Into the kitchen
This kitchen floors full of cracked tiles and rat traps
When the sink goes on the drips will make your head crack
And those cupboard doors smackin' open and closed
A preist came to do a blessin' but he got hosed
Pedophile
And that's just the beginning
Cause other shelves are stacked with plates
And they spinnin' on them
And I heard the drawers open and knives get to flinging
The folks that stayed here got seventeen in them
[Chorus]Did you hear it?
Hell house for sale
Did you hear the hell house for sale
With the spirits
Hell house for sale
Did you hear the hell house for sale
Did you hear it
How much they want?
How much they want?
How much they want?
How much they want?
With the spirits
Did you hear the hell house for sale
[Blaze Ya Dead Homie]Into the bedroom
They say they found his wife's body mangled on the bed

With six inch wounds to the back of her head
Her kids were there too
both hanging in the closet with
one extention cord and there
blood still on it
Thinking bout the blood
it was the most they ever saw
on the clothes, on the floors,
on the sheets and on the wall
no one could belive their there
for their last finding
underneath the bed formed
mutilated grindings
In the house theres a stair way
leading to the addic
they say it was a room where

the witch did magic
on the 12th day of every month
you could hear her yell
like a curse on the neighborhood
for sending her to hell
I was soo interested i had to know more stole ladder and i climbed
threw the window on th 2nd floor
strait to addic cold chills
with no suprise and to a girl
named amy and a with givin evil eyes
[Chorus]Did you hear it?
Hell house for sale
Did you hear the hell house for sale
With the spirits
Hell house for sale
Did you hear the hell house for sale
Did you hear it
How much they want?
How much they want?
How much they want?
How much they want?
With the spirits
Did you hear the hell house for sale
They say that in the basements
where it all went down
They cemented the walls and repainted the ground
to hide blood stains and pentagrams
that were there before they

put chain and padlock on the celler door(celler door)
but this is hell house
aint no changein the pain and stopin
the shit the lerks and lives inside
the dirt in the cracks
and the fram works dont say ita a talltail
thats ywhy they call it hell house
and its always for sale
I hear the back yard is a cematry of bodies and if it rains
hard enough you see the top
of they noggins
they got ropes that they hung bodies from
its frightening
some nights i hear the gurggle of gas and ropes tightening
there are always voltures
circling in the sky and the sun
nevr shines house coverd in vines and smell
comin out of that yard 'll
choke a pig i skate board back and forth smokin a jill
[Chorus]Did you hear it?
Hell house for sale
Did you hear the hell house for sale
With the spirits
Hell house for sale
Did you hear the hell house for sale
Did you hear it
How much they want?
How much they want?
How much they want?
How much they want?
With the spirits
Did you hear the hell house for sale
