

# Positive Vibes

Josh Naster

We need some positive vibes for these rainy days  
Let the sun come out keep push these clouds away  
We need some positive vibes life's for fun so go and play  
Let the sunlight in, brighten up your day  
Let the vibes blow like the ocean breeze  
Mamma always told me there'd be days like these  
Keep your head right, just do as you please  
No never interfere with an evil man's schemes  
Keep your heart pure, conceive your own dreams  
Respect your fellow man, the earth and the trees  
The air that we breathe to the highest mountain peak  
Bring truth from your soul to your mouth when you speak  
No need to get loud, messin' with others  
Stressin' your brother, it's time to uncover  
Time to choose another path you see  
'Cause the road most traveled's negativity  
Put your fist down, fist down, throw your hands in the air  
Respect yourself, be somebody who cares  
Don't let life get you down, don't feel abused  
Keep a positive view unto yourself be true  
We need some positive vibes for these rainy days  
Let the sun come out keep push these clouds away  
We need some positive vibes life's for fun so go and play  
Let the sunlight in, brighten up your day  
Everyday's a new adventure you got to keep what you got  
Livin' life in a studio bustin' rhymes in my socks  
I got to keep my head up and always do what I feel  
Avoidin' all the evil and just keeping it real  
(I need some positive vibes)  
All these situations I keep hearin' about  
People dyin' in planes and buildings crumbling down  
This world goes round for no apparent reason  
People robbin' and theivin' just to feel good for the evening  
(We need some positive vibes)  
What happen' to everybody's peace and love  
Throw your drinks in the sky, raise your hands up above  
Get your head out of the gutter and be respectful  
We need some positive vibes for these rainy days so let it go  
Don't never get it twisted when I'm on this track  
D Loc the kind kid that be kickin' it in the back  
Of the class everyday I was high  
Goin' to school in 95, easy that how we ride  
We need some positive vibes for these rainy days  
Let the sun come out keep push these clouds away  
We need some positive vibes life's for fun so go and play

Let the sunlight in, brighten up your day  
It's time to leave this rat race track down Babylon  
Keep my head straight, keep my family movin' on  
Find my own pace, create my own space  
Detach my whole scene from this wicked rat race  
These two faced friends, the snakes in the grass  
Daddy always told me there'd be men like that  
So watch your own back keep your eye on your stacks  
Don't ever write a check that that ass can't cash  
We need some positive vibes for these rainy days  
Let the sun come out keep push these clouds away  
We need some positive vibes life's for fun so go and play  
Let the sunlight in, brighten up your day  
We need some positive vibes for these rainy days  
(Keep on reaching for it, keep on hoping for it)  
Let the sun come out keep push these clouds away  
(What we need is, all we have is positive vibes)  
We need some positive vibes life's for fun so go and play  
(What more can we say to you? What more can be said to you?)  
Let the sunlight in, brighten up your day  
(What we need is, all we have is positive vibes)
