DJ Bobo

Chorus: Can you feel it? Can you feel it,

What it means to hold a hand?

I've been around the world!

Can you feel it? Can you feel it,

What it means to hold a hand?

I've been around the world! Vers: If you need a hand, You can find a friend

In every nation of this world,

If you need a hand, You can find a friend

In every nation of this world, Rap 1: I've been around the world, saw the desert and the rainbow - I go for the

Stop running every day from the pain; say no, go!

Driving you insane, no shame that you want let show -

Call my name; I feel the same when you have sorrow!

Grow, let it go! There it always be a tomorrow. Rap 2: All around the world when you need a friend;

I'll be there, anywhere, don't care with a helping hand,

Understand one another 'til the end,

I swear; I'm fair, I care always gonna be there - Black, white, yellow,

No matter if you're young or old;

All for one, one for all - That's what my mother told me!

Different colours and faces, find the trace To your embrace this human race;

Peoples (are) so open, much more as I expected - Invincible pleasure in Brazil (Samba),

Fond of life - there was no time to chill!!

I've been around the world, a thousand times for sure,

Could be more explore?

Before you walk through that door. Text: Life's a castle on a raining sandy beach,

All your hopes and dreams so far beyond your reach,

Climb the highest mountains, swim the deepest sea,

No jealousy, eternally; the family is, what you need!.....
