My Orphan Year

Nofx

My father had dementia He lied in bed for months Once in a while he?d call me And ask me to fly down I told him that I?d love to But I had things to do And so he died without his son I heard about it drunk after a show My mother battled cancer For over seven years I nursed her and I held her When time was running out The night before she left me I drank scotch all night And thanked her for everything she?d done Raising me alone wasn?t much fun

Dad I can forgive you, but I?ll never forget, Months I wouldn?t see you and when I did You?d be out with your friends all night Alone and only nine I watched the outer limits And scared out of my mind I wonder if you felt the same The days before you died I wonder if you even knew Why I wouldn?t come around I bet if you had been there, There wouldn?t be this song 2006 goodbye parents For once I am sincere 2006 my orphan year
