

Where the Boys Are

Tailor

Winter came to soon
I was blessed by you
Summer fell in June
She was all over you
Calendar tip toe to you

Where the boys are that's where I want to be
Where you are
Where the boys are that's where I want to be it's where you are that's where I want to be

I came dressed in black almost died of a heart attack
Crawling to the floor she was begging you for more
Calendar tip toe to you
