

Come Bye

E3

Yea yea yea..

Baby come by early (relax) I want to see your face (unwind with me)
I'll light the candles, you pour the wine, everything will be just right.
Baby come by early (relax) I want to see your face (unwind with me)
I'll light the candles, you pour the wine, everything will be just right.

I'm glad you called, 'cause i wanna feel your touch.

I'm all alone, and i'm missing you so much, so much.

Baby come by early (relax), i wanna see your face (unwind with me)
I'll light the candles, you pour the wine, everything will be just right.
Baby come by early (relax), i wanna see your face (unwind with me)
I'll light the candles, you pour the wine, everything will be just right.
