

# Mara

## Devendra Banhart

Yeah, she is  
I confess  
I fell from one trap to the next  
I fell from one trap to the next  
I close my eyes, see the same things  
Look away  
I can always recognize it  
but I .....that it means Yeah, she is  
I confess  
I only have one life to forgive  
May not be real dreams with them all you get  
In the wilderness I know, there's something so familiar  
Something I cannot control  
Something I cannot control  
I fell from one trap...  
I fell from one trap...  
I fell from one trap...  
I fell from one trap...
