

# Your Better Self

## WhoMadeWho

Hook:

We saw you this morning,

Why don't you come over?

You look like a hero

but We can see through you. You clearly need something,

Just how can we help you?

Pretend that it's nothing

but Still Do Come Over Come, come on and join us

Come on and join us

Come on and be your better self.

You can do it

You can achieve it

If you believe it We are the providers,

We are the solution

We got the intention

We got the conclusion Saw you this morning

Why don't you come over?

You look like a hero

but We can see through you Hook:

Come, come on and join us,

Come on and join us

Come on and be your better self

You can do it

You can achieve it

If you believe it

(2x)
