Play Our Song

Ruben Studdard

Ladies and Gentlemen
(Ladies and Gentlemen)
This is a Jazzy Phizzle Productshizzle
(This is for the couples, strictly for the couples)
I'd like to introduce y'all to somebody
(This is for the couples, strictly for the couples)
That you should already know
(Introducing)
Ruben Studdard
(This is for the couples, strictly for the couples)
He's your idol, the highest title
I noticed lately we just been getting by
Our love is there, we just need some life
I think we need to go back to basics
Like when I used to call you on the phone
And tell you to get your fresh clothes on
We need to start that again, baby, listen
Let me tell you what we goin' do
We gonna act like we brand new
And I'ma take you to the spot
Where I first laid eyes on you
And we goin' dance tonight
And hit that 1, 2 step 1, 2 step, baby
All night, yeah, yeah, and tell the DJ to play our song
(My song, your song)
The way he did the night
We fell in love and I held your hand
(Do you remember that, yes, I remember that)
Play our song
(And take me back)
To the night I met my baby
And I asked her to dance
(Do you remember that, yes, I remember that)
You always running round and I work till the sun go down
We hardly see one another
And barely got time for each other
And we need a break, we need to get this love back pumpin'
And let the people know
We still got it, here's the way

Let me tell you what we goin' do
We gonna act like we brand new
And I'ma take you to the spot
Where I first laid eyes on you
And we goin' dance tonight
And hit that 1, 2 step 1, 2 step, baby
All night, yeah, yeah, tell the DJ to play our song
(My song, your song)
The way he did the night
We fell in love and I held your hand
(Do you remember that, yes, I remember that)
Play our song
(And take me back)
To the night I met my baby
And I asked her to dance
(Do you remember that, yes, I remember that)
(Oh, I, oh, I, I)
Yeah, I just want to take it back
Ain't nothing wrong with that, let's get back to the love
(Oh, I, oh, I, I)
Just want to get back to me and you
You know we're overdue, put on your dancing suit
(Tell the DJ to play our song)
(My song, your song)
The way he did the night
We fell in love and I held your hand
(Do you remember that, yes, I remember that)
Play our song
(And take me back)
To the night I met my baby and I asked her to dance
(Do you remember that, yes, I remember that)
(My song, your song)
The way he did the night
We fell in love and I held your hand
(Do you remember that, yes, I remember that)
Play our song
(And take me back)
To the night I met my baby and I asked her to dance
(Do you remember that, yes, I remember that)
