

Sister

Young Fathers

Terrified and little, she grabs my hand to settle
Uniformed hero, scared of jagged nettles
Incoming sounds, think its heavy metal
Cohesive and loud, engines roaring like a lion
On the white and yellow lines
We're standing before the red line and im thinking, not now
Figure standing in the middle dressed in all yellow
With his hat down and a stop sign
He shouts come now Waterfalls appear in the centrefold
Bite ya lady with ya teeth like an animal
Like the desert in the night it gets cold
To get the credit scan the barcode
The bossy mama discipline and her comforts
Respiratory food and water the constructs
Rival sib-a-lings Technicolor dream coat
Sister let me have some sugar in my porridge oats
Don't let your sister go Living happy godless gimmick
Power poison million dollar
Ocean walking knowing hoping
Freezing leaving greedy coward
Brother mother mixer father
Clapping other shifting colour
Trailing fading looking making
Combat warning picture witness
Loser chooser giving testing
Woman turning silent hustle
Future level jacket ratchet
Chemist scumbag cliché friendly
Defect reflect process precious
Answer statement simple aiming
Target easy virus control
Image changing wasting

Songwriters

ALLOYSIOUS MASSAQUOI, KAYUS BANKOLE, GRAHAM HASTINGS
