

When the Night Is Long

[Mike Doughty](#)

When you're goin' out
You live in your own scene
When you need to shout
You dance in your own dream When the night is long When you're in your song
The moon's in the blue trees
Sea of light
Let's pretend that the world's free When the night is long In your blazin' hour
Your light is the green flame
Your room on fire
You're a wire to the mainframe
When the night is long
