D-R-U-N-K

Roger Alan Wade

How do you spell relief?
I get D-R-U-N-K
Lately Dave since my baby left me
I do it almost every day
It's the only thing that I've found
That'll take the hurt awayWell, how do you spell relief John?
I get D-R-U-N-K
Every night about sundown
I get a pain down deep inside
This old broken heart acts up
There's a hurtin' in my prideWell, I've found a sure fire treatment
That'll get me feelin' right
When your memory starts flarin' up
I just head for the neon lightsHow do you spell relief David?
I get D-R-U-N-K
Lately since my baby left
I do it almost every day
It's the only thing that I've found John
That'll take the hurt awayWell, how do you spell relief?
I just get D-R-U-N-K
John HartfordI don't need no doctor
To tell me what is wrong
I can fill my own prescriptions
And it lasts me all night longIt's the perfect medication
For an ailment such as mine
I forget about the tears I've cried
When the whiskey hits my mindHow do we spell relief?
We get D-R-U-N-K
Lately since my baby left me
I do it almost every day
Well, I tell ya Johnny
Its the only thing I've found
That'll take the pain awayHow do we spell relief?
We get D-R-U-N-KHow do we spell relief?
We get D-R-U-N-KHow do we spell relief?
We get D-R-U-N-KWe're havin' fun now, ain't we?
