

Jeekyll or Hyde

Die Krupps

Fear myself - and nobody else
Born of innocence - you and me
the struggle to know - who to be
society's forcing you to be rotten
all morals have been forgotten
Find myself - in all this mess
free myself - from all this mess
You're fighting to stay on the good side
there's no one to show you what's good or right
when desperation strikes with all its might
you turn from good Jeekyll to evil Hyde
Society's forcing you to be bad
it is the truth it is so sad
it makes the worst come out
I see where it's leading to and I shout
The world says hate - yet I still care
Jeekyll or Hyde - which will I be
society throws the dice - will I be a prisoner or will I be free
Jeekyll or Hyde - which will be my fate
society throws the dice - will I love or will I hate
Jeekyll or hide - which will I choose
society throws the dice - will I win or will I lose.
