

Cosmic Universal Fashion

Sammy Hagar

One man coming with a vision
One man got it with a plan
Got love, got passion
Here comes solution in a can, well
Everybody's changing their shoes
Everybody's washing their hands
Everybody's got a new hairdo
Everybody's making new plans
Cosmic universal fashion
Right now, standing at the crossroads
Right now, halfway there
Right now, world's getting smaller
Right now, people need care
Right now, Euro beat dollar
Right now, dollar beat yen
Right now, oil beat everything
Right now, pure water gonna win
[Incomprehensible]Hardcore, better get a vision
So sweet divine poverty
Overpriced genetic implants
Sooner we're gon' trash parlor tree, well
Everybody's changing their shoes
Everybody's washing their hands
Everybody's got a new hairdo
Everybody's making new plans
Cosmic universal fashion
Right now, standing at the crossroads
Right now, halfway there
Right now, world's getting smaller
Right now, people need care
Right now, Euro vs. dollar
Right now, dollar vs. yen
Right now, oil vs. everything
Right now, someday the water gonna win, yeah
Whatcha gonna do?
Whatcha gonna do about it?
Whatcha gonna do?
Hey, whatcha gonna do about it?
Whatcha gonna? Whatcha gonna?

Whatcha gonna do about it? Hey
Whatcha gonna, whatcha gonna
Whatcha gonna do about it? Hey, hey
What we gonna do?
Cosmic universal fashion
Right now, standing at the crossroads
Right now, halfway there
Right now, world's getting smaller
Right now, people need care
Right now, Euro vs. dollar
Right now, dollar vs. yen
Right now, oil vs. everything
Right now, water gonna win
Everybody's changing their shoes
Washing their hands, making new plans
Cosmic universal fashion
