Steal You Away

Hybrid

Foolish
Makes no sense to me
Wasteful
Where fear breeds deceit
Bullets, screaming
From out of nowhere
And tanks roam the streets

It steals you away
Only denied
It steals you away
From being alive

Grazed
Calling out our names
Bleeding hearts that feel no shame
Take the burden
Lay down the blame
The situation's changed

It steals you away
Only denied
It steals you away
From being alive

It steals you away
