# Up Into the Sky

## Sunny Side Up

You often wonder what I'm thinking,
is my world still turning roud,
it feels like all my ships are sinking,
I'm nowhere to be found, my life ran on too fast,
I'd like to run and hide, this thing can never last
Take me up into the sky, every single day
and show me how to fly my tears away,
I'm high above the ground, longing to be free,
flyin' through the clouds is where I'll be...
You often wonder why I'm swimming,
against the usual flow of life,
it's because my heart is singin',
a song I've never heard, I strain to understand,
I'm up against the wall, trying to pretend
Take me up into the sky, every single day
and show me how to fly my tears away,
I'm high above the ground, longing to be free,
flyin' through the clouds is where I'll be...
And if you'd like to string along,
look into your dreams and make them strong,
save them for a rainy day,
try to ease your mind and slip away...
Solo
So take me up into the sky, every single day
and show me how to fly my tears away,
I'm high above the ground, longing to be free,
flyin' through the clouds is where I'll be...
Would you take me up into the sky, every single day
and show me how to fly my tears away,
I'm high above the ground, longing to be free,
flyin' through the clouds is where I'll be,
that's where I'll be
