

Heartstopper

[Keith Richards](#)

My babe don't like me, she loves me just the same
I just can't help it, it goes against the grain
But when she holds me something starts anew
She forgives me, and I forgive her tooShe's a vegetarian, but me, I love my meat
She likes it when it's cool, but I just love the heat
But when she holds me something starts anew
She forgives me, and I forgive her tooWhen we walking down the street, oh it blows their minds
Everybody wants a piece, a piece of mine
Even if I cross the road she's always on the phone
I don't know who she's talking to, but I've walked home alone
But when she holds me something starts anew
She forgives me and I forgive her tooThat bitch don't like me, but she loves me just the same
And when she loves me I don't feel no painShe don't like me
She don't like me
She don't like me
She don't like me
She don't like me
She don't like me
She don't like me
She don't like me
She don't like me
