

# Natural Life

## Natural Tapes

Hold stillAll of my life  
All of my time  
I don't wanna come back around tonight  
And all that I need  
Is serenity  
I don't wanna feel your new diseaseThe natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lieAll of my lies  
Swallow your pride  
I don't wanna come back around tonight  
And all that I need  
Is serenity  
I don't wanna feel your new diseaseThe natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lieRight  
You're rightWhen you're right  
I can never lie  
Let me go  
Try to find a home  
An' I can't wait  
Try to stay awake  
Dead inside  
Bothered by the lie  
When you're wrongThe natural life  
You're born, you die  
The natural life  
You're wrong, you're right  
The natural life  
You're born, you die  
The natural life's a lieA lie  
Lie
