

# Together as Ever

## Dark Moor

Deep inside me,  
I feel a storm,  
Its echoes flee,  
I rest warm.  
It's like a bomb  
Of fire and sound  
It's coming from  
Where profound. My world's made of tears  
Since you departed to disappear,  
But my hope is clear;  
I will carry on standing up here.  
I'm a white paper with a blot,  
I'm a bright sun with a black spot,  
And in my dreams we are together  
As ever.  
I'm a clear mirror with a crack  
That reflexes you forever,  
And in my dreams we are together  
As ever. Deep inside you,  
You feel a chill,  
It's something new  
And gets you ill.  
It's like voodoo,  
A magic rite,  
It ties up you,  
Stops your flight,  
My world's made of tears  
Since you departed to disappear,  
But my hope is clear;  
I will carry on standing up here. I'm a white paper with a blot,  
I'm a bright sun with a black spot,  
And in my dreams we are together  
As ever.  
I'm a clear mirror with a crack  
That reflexes you forever,  
And in my dreams we are together  
As ever.
