

Make This Leap

The Hunts

I could see,
I could see your heart, through your eyes
On that night from the balcony
How could we ever
Make this leap? You and I,
Caught up in wind like we were parachutes
Oh how we'd fly until we hit the ground
How could we ever
Make this leap? We were young,
I used my paper telescope,
To show you the stars and then win your heart
How could we ever
Make believe? I can see, I can see, I can see a sunrise
Call me out from the dark, cause I'm broken inside
I can see, I can see, I can see a sunrise
Call me out from the dark, cause I'm broken inside Up above the static
Up above the racket
I hear your voice calling me out of the darkness
Up above the static
Up above the racket
I hear your voice calling me out of the darkness Caught up like parachutes, Caught up like parachutes
Oh how we'd fly
Caught up like parachutes, Caught up like parachutes
Oh how we'd fly! You called me out from the dark, and brought me into the light,
You called me out from the dark, and brought me into the light,
You called me out from the dark, and brought me into the light,
You called me out from the dark, and brought me into the light.
