

The Dreamers

[Jesse Malin](#)

Wake me up when the world is dead
I think I missed you my whole life
With the sun in your eyes Every time I hear the sound of my international baby
Every time I fall asleep and wake up all alone
Bringin' it on I lie awake and I watch the news
In a language I don't understand
But the blood still runs red Every time I hear the sound of my international baby
Every time I fall asleep and wake up all alone
Every time I'm going out I'm feeling like a stranger
Bringin' it on As I stare out on the river bank
I'm still thinking about the sea
While I'm gone think of me Every time I hear the sound of my international baby
Every time I fall asleep and wake up all alone
Bringin' it on
