Founder

The Color Red

Placed in sideways
I don't need this
Paint me outer space
Shape in planets
Until it's right there
I won't feel good
Inside me
Tell them the blind now see fineI already come with a mess
That you left me on
I already come with a mess
That you left me on
You left me onKeep drinks coming
Until I feel good
Helps me to feel safe
While I'm driving
With my lights off
I don't feel good inside me
Tell them the blind now want to driveI already come with a mess
That you left me on
I already come with a mess
That you left me on
You left me onTell me I feel fine
Tell them the blind now want to driveI already come with a mess
That you left me on
I already come with a mess
That you left me on
You left me onTell them the blind now want to drive
