Let This Go

112

Girl I don't understand, 'stand the reason why, why you act this way
What did I do, tell me what the problem is?
I don't wanna see, wanna see you leave
Wanna let you go, I just wanna find a way to work it outWe've been through so much, good and bad times
Girl I did you wrong, you forgave me then we tried to start over
And I apologized tried to make it right, so many times
Now I think it's time to let this goAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this goAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this goGirl it's hard for me to tell you that it's over, I hate feeling this way
But I know you know things just haven't been the same
We always said that we, we would tell the truth
No matter what it is, can't continue to pretend our heart is in itI'm waiting for you to see the reality
We at dead end, there no way to go unless we gonna to be just friends
I love you so much, never thought that I would ever have to say
That I think it's time to let this goAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this goAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this goWhat happened to the love?
What happen to the girl, the girl I fell in love?
I never thought I'd been the one to say, "Goodbye"
I'm sick and tried of the arguing and I don't wanna do it againAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this goAnd even though I love you and you've been with me for so long
And we thought that we could make it work but we were wrong
And neither one of us wanna be the first to say, "Goodbye"
Baby I think it's time to let this go
