Share The Love

Sling Seed

Text me if you want to
You can touch me if you want to
Text me if you want to
You can reach out and touch me

Text me if you want to
You can love me if you want to
Text me if you want to
You can reach out and love me love me

Share the love with me my friend
And take me back home again
Share the love with me my friend
And take me back home again
Share the love with me my friend
And take me back home again
Share the love with me my friend
And take me back home again
