

Blood Brothers Revenge

Dwarves

In my dreams I see those two
It fucks with everything I do
They shot off acid in my eye
Left me lying there to die
Stole my car and waved goodbye
And then that time we all got high
They raped my sister with a knife
But it was always 'cause the things
That they could do
To watch me getting screwed
Fuck my wife
But my revenge it will be sweet
When next the three of us will meet
My revenge (x3)
I'm talkin' bout my, my, my
I'm talkin' bout my, my
My revenge (repeat and fade)
