

# Chick Lit

## We Are Scientists

I wouldn't be caught dead with your kind  
And all the hot shot carrying on that you do  
It's your only move

I wanna see you all buried alive  
And I'll be up top carrying on over you  
Only for you

I asked you nicely once but I won't do that again  
I asked you nicely once but I won't do that again

If after all we still have high hopes and all is forgiven, if all is forgiven  
I asked you nicely once but I won't do that again

You know that we've got some axes to grind  
We've got some sharp tongue carrying on to do  
It's your only move

I wanna see you all buried alive  
And I'll be up top carrying on over you  
Only for you

I asked you nicely once but I won't do that again  
I asked you nicely once but I won't do that again

If after all we still have high hopes and all is forgiven, if all is forgiven  
I asked you nicely once but I won't do that again

I asked you nicely once but I won't do that again  
I asked you nicely once but I won't do that again

If after all we still have high hopes and all is forgiven, if all is forgiven  
I asked you nicely once but I won't do that again, again
