Don't Forget Me (Kaan Koray Edit)

Way Out West

There's just one thing that I need to say
Before I close my eyes and walk away
There's just one thing that I need to feel
Before I walk away against my will
There's just one thing that I need to hear
Before I walk away for the last time
There's just one thing that I need to see
Before I take this chance and set us freedon't forget me
Don't regret me
Don't suspect me
Don't neglect meThe memory of this still reminds me of you
The memory of this still reminds me
The memory of this still reminds me of you
That is where you'll find meStars in your eyes
Did you take the time to realize
Can you count the stars in your eyes
Did you take the time to realize
