

Have My Baby

Lloyd

Ooh baby, oh Heaven only knows how good you make me feel
You're my fantasy, everything is real
I'm diggin' on you and you diggin' on me
You're my favorite meal, a perfect recipe You be makin' me feel like I don't need
No other woman in my life, my life
Your love is like water, the air that I breathe
Please, don't think I'm crazy but oh Please, have my baby, yeah, I'm talkin' to you
If you want to have my baby then here's what you do
Take your clothes off and let your love come down
Take your clothes off and let your love come down Please, have my baby, yeah, I'm talkin' to you
I want you to come on over here and let me show you
Come on over here and let me show you
Come on over here and let me show you
Come on over here and let me show you Lookin' at my watch, it's about the time
No matter what it takes I'ma make you mine
I just wanna, I just wanna show you I'm
Nothin' like, nothin' like, nothin' like them other guys I ain't never, I ain't never realize
That love's really all about compromise
Until I met you and you changed my life, girl
I die for you tonight You be makin' me feel
Like I don't need no other woman in my life, my life
Your love is like water, the air that I breathe
Please, don't think I'm crazy but I Please, have my baby, yeah, I'm talkin' to you
If you want to have my baby then here's what you do
Take your clothes off and let your love come down
Take your clothes off and let your love come down Please, have my baby, yeah, I'm talkin' to you
I want you to come on over here and let me show you
Come on over here and let me show you
Come on over here and let me show you
Come on over here and let me show you, oh Please, have my baby, yeah, I'm talkin' to you
If you want to have my baby then here's what you do
Take your clothes off and let your love come down
Take your clothes off and let your love come down Please, have my baby, yeah, I'm talkin' to you
I want you to come on over here and let me show you
