

# Appetizer

## Freak Kitchen

Everyone looks at her  
She only looks at me  
The waiter introduces us to each other  
This woman's a delicacy My eyes lick her body  
She smells oh so nice  
I wanna eat her all up  
A taste of paradise Appetize, Appetize,  
Appetize, Appetizer I am a simple man  
And I've got simple needs  
I'm starving to see what she's hiding inside  
Hungry for her dirty deeds A one way conversation  
Her eyes say it all  
We both know what we want tonight  
I feel my stomach call Appetize, Appetize,  
Appetize, Appetizer
