We Live For Love

Pat Benatar

Your love's contagious One kiss is dangerous But I have more to risk Than you to loseI feel passion growing I know that love is only Just one inch away From striking usWe live for love We live for loveWhen we get tired And watch the summer fade away Will you think of romance? What will we do? Is there a place where we can go? Where time stands still For those who know till eternity? We'll fulfill our desiresWe live for love We live for love We live for love We live for loveI never planned to win the race But you convinced me face to face There was never a chance Of losing at allWe live for love We live for love We live for love We live for loveWe live for love We live for love
