

# Purple Skivvy

## Angus And Julia Stone

Haven't felt my heart beat in fifteen years  
I haven't felt my heart beat  
Since I saw you standing here

Love is not a war that I have got to fight  
When in this life  
What I (can't love right?)

I, I haven't got what I need  
From you

A purple skivvy (remark?)  
You know what they are  
Memories attached to photographs

I'm one of those girls  
Who carries on the lie  
I'm one of those people who never gets facts right

I, I haven't got what I need  
From you  
What I need, from you  
What I need
