

# Roll Me Through The Rushes

Chaka Khan

Roll me through the rushes like moses  
Roll me through the rushes just like moses  
Roll me through the rushes like moses  
Guide me to the new woman who waits  
Current, leave me on the banks  
By the cottage  
Wher we will dine with silver cups  
And golden plates  
Roll me through the rushes like moses  
Roll me through the rushes just like moses  
I've prepared for my last journey  
You know I've worked all my life  
To make this basket strong  
But a woman alone on a river  
She can't stay in the water too long  
I've been chilled, I've lost my will  
And I've stayed away from rivers  
Much too long  
I really must stay in this dirty dirty city  
Till I found out that my strength was gone  
Roll me through the rushes like moses  
Roll me through the rushes just like moses  
Roll me through the rushes like moses  
Roll me through the rushes just like moses  
Roll me through the rushes like moses  
Roll me through the rushes just like moses  
Roll me through the rushes like moses  
Roll me through the rushes  
Just like moses on the Nile  
River, river (sail)  
River, river (sail)  
River, river (sail)  
River, river (sail)
