Metal Nation

Primal Fear

In a world where greed and money rule
There's no space for people who are true
We conquer the night, freedom in sight
Take all our guts and struggle on
Until we are near to the sunEverybody join the metal nation
Adapt to the beat of our hearts
Let the music spread the wordIn a time where power forces you
Not to do what you would love to do
We conquer the night, freedom in sight
Take all our guts and struggle on
Until we are near to the sunEverybody join the metal nation
Adapt to the beat of our hearts
Let the music spread the wordEverybody joins a great sensation
Lets make a brand new start
Let the joy forever lastEverybody join the metal nation
Adapt to the beat of our hearts
Let the music spread the wordEverybody joins a great sensation
Lets make a brand new start
Let the joy forever last
