

Adore

[Amy Shark](#)

[Verse 1]

I'm just gonna stand with my bag hanging off my left arm
I'm just gonna walk home kicking stones at parked cars
But I had a great night, 'cause you kept rubbing against my arm
I'm just gonna stand with my bag hanging off my left arm[Chorus]
Get me a drink I get drunk off one sip just so I can adore you
I walk the entire street out of town just so I can be alone with you
Now go when you're ready
My head's getting heavy, pressed against your arm
I adore you[Verse 2]

All of my money is spent on these nights, just so we can hang out
Squeezing in and out of these dresses, I wanna be found
By you
Found by you[Chorus]

Get me a drink I get drunk off one sip just so I can adore you
I walk the entire street out of town just so I can be alone with you
Now go when you're ready
My head's getting heavy, pressed against your arm
I adore you, I adore you[Bridge]
I kick the gutter in tight shorts, basketball courts
Watch me watch him talk to girls
I'm known as a right hand slugger
Anybody else wanna touch my lover?[Chorus]
Get me a drink I get drunk off one sip just so I can adore you
I walk the entire street out of town just so I can be alone with you
Now go when you're ready
My head's getting heavy, pressed against your arm
Just to adore you, I adore you
