

# More Time (Live From Knoxville, TN - 03/01/12)

## NEEDTOBREATHE

I promised you the world again  
Everything within my hands  
All the riches one could dream  
They will come from me I hoped that you could understand  
That this is not what I had planned  
Please don't worry now  
It will turn around 'Cause I need more time  
Just a few more months and we'll be fine  
So say what's on your mind  
'Cause I can't figure out just what's inside I hoped that you could understand  
That this is not what I had planned  
Please don't worry now  
It will turn around 'Cause I need more time  
Just a few more months and we'll be fine  
So say what's on your mind  
Cause I can't figure out just what's inside  
So say alright  
Cause I know we can make it if we try  
Cause I need more time  
Just a few more months and we'll be fine Were off to new lands  
So hold on to my hands  
It's gonna be alright  
It's a whole lot brighter  
So stand by the fire  
It's gonna be alright  
Yeah, the road gets harder  
But it's not much farther  
It's gonna be alright  
You know that it ain't easy  
Please believe me  
It's gonna be alright Please don't worry now  
It will turn around 'Cause I need more time  
Just a few more months and we'll be fine  
So say what's on your mind  
Cause I can't figure out just what's inside  
So say alright  
Cause I know we can make it if we try  
Cause I need more time

Just a few more months and well be fine
