

You Do the Same For Me

Dave Barnes

Tell me everything
'Cause I can see it in your eyes
There's a story there these tears
Won't tell me why Oh, and don't be strong
Isn't that what got you here?
Wanderin' in this dark alone
Among your fears Let me know what I can do
To bear this weight here with you You do the same for me
Oh, you do the same
You're the blood when my heart won't beat
Oh, you do the same So I hold the light in this night
So your eyes can see
You do the same for me This circumstance
It is such a common thing
We're all butterflies
With broken wings Let me know what I can do
To bear this weight here with you You do the same for me
Oh, you do the same
You're the blood when my heart won't beat
Oh, you do the same So I hold the light in this night
So your eyes can see
You do the same for me Life will never leave us alone
So I'll never leave you alone You do the same for me
Oh, you do the same
You're the blood when my heart won't beat
Oh, you do the same And I hold the light in this night
So your eyes can see
You do the same for me
You do the same, the same for me
