Just One

Hoobastank

I wanna live, I wanna live
I wanna open up and breath
I wanna go, I wanna be
I wanna feel it constantlyGotta show, gotta stay
I've gotta feeling that won't go away
I've gotta know, if they got away
My opportunitiesJust one
Chance is all I ever wanted
Just one

11 4 1

Time I'd like to win the game

From now on

I'd take the chance if I can have it

Just one, just oneI need to think, I need to feed

I need to see if I still bleed

I need a place, I need a time

'Cause I need to step outside that lineGonna give, gonna take
I'm gonna scream till I'm awake
I'm gonna budge, I'm gonna budge

Open up the doorJust one Chance is all I ever wanted

Just one

Time I'd like to win the game

From now on

I'd take the chance if I can have it

Just one, just oneAnd if I knew when the door was open
I'd go through, I would go on through

And I can say what I do never be the same

Never be the sameJust one

Never be the sameJust one

Chance is all I ever wanted

Just one

Time I'd like to win the game

From now on

I'd take the chance if I can have it

Just one, just oneJust one

I'd take the chance if I can have it

Just one

I'd take the chance if I can have it

Just one

Yes I'd take the chance if I can have it

Just one, just one
