

Radio City Serenade

[Mark Knopfler](#)

You've got to have no credit cards
To know how good it feels
The howling of the bridges
The sidewalks bound with steel
Sitting on the sidewalk
With a party to arrange
May you never change I stay out when I want to
Still she takes me back
Don't know another girl
Would cut me so much slack
Every wounded soldier
Needs a lady with a light
To help him through the night So blow a kiss to Radio City
My forever silhouette
Oh, you are so pretty
My beautiful Rockette
You've got my arms
And the crosstown horns
Going on - we've got it going on Have I got you a river view
This one tops the list
Got a head full of you
And Irish Mist
I know I owe it
To the lady by the sea
Who still looks out for me So blow a kiss to Radio City
My forever silhouette
Oh, you are so pretty
My beautiful Rockette
You've got my arms
And the crosstown horns
Going on - we've got it going on You've got my arms
And the crosstown horns
Going on - we've got it going on
We've got it going on
