

# Go On Without Me

[Brett Eldredge](#)

Every man has his place in time  
Everyone has a love one that they leave behind  
Even though I'm not where there with you  
I'm watching from a distance, Just wishin' that you knew

I'll always hear the prayers in your head late at night  
I'm walkin' right beside you and nobody's by your side  
I don't want you to cry over my memories  
So go on without me,  
Without me

I hope that it's my love that makes you feel  
But you can get back on your feet yeah I swear you will  
Oh you got so much of this life left to live  
I'll be smiling at the thought of you like I always did

I'll always hear the prayers in your head late at night  
I'm walkin' right beside you, and nobody's by your side  
I don't want you to cry over my memories  
So go on without me  
Without me

Without me  
Without me yeah

I'll always hear the prayers in your head late at night  
I'm walkin' right beside you, and nobody's by your side  
I don't want you to cry over my memories  
So go on without me  
Without me

Every breath of life is short and sweet  
So glad that I'm up here that I got to see  
You go on without me
