

# Unpatience

## Quadron

i said i was moving mountains  
could have fooled you  
i just love the attention  
you said i was building a scene  
rewritting the scheme  
well i'm just casting solutions  
you know it's just one act out of three  
of the makings of me

unpatience  
waiting to find my theme  
for these scenes  
unpatience  
waiting to find my theme  
for these random scenes  
its a script conspired for comfort  
directed by the spectators  
my personal lullabye  
you know it's just one act out of three...
