

Omega Child

Zed Yago

From the very beginning
from the very first start
do you know all about Alpha
it's the owner of the one and only part.
And all deliverers came
kept on singing a hymn
they're on their way to research the echo
of the one and only original sin. Don't stop the fire, call him the Wild,
he was born in a mortal storm
and called the Omega Child.
People, you're the prodigal son, won't listen to the down below
made of and in a formless form
don't laugh too loud up there
he is the Omega general heir.
